Yes, I really want to get my hands on this amazing material as soon as possible! I am anxious to train my production workers to lower scrap rates, reduce mold damage, and decrease machine downtime. Here is what I want:

✓ **New Spanish Injection Molding Basics Training Series;**

- Where I get the latest and most advanced *Spanish Injection Molding Basics* training for me and my employees.
- PLUS...** I will receive **CourseWorks 4.0** to keep track of ALL of my employees' knowledge, skills, and abilities in injection molding...
- AND...** I will get **CourseWorks Customize Pro** and a...
- Digital Camera with Voice Recording** so I can tailor and customize the training to fit my exact needs...
- AND...** I will also get a hold of two training DVDs: **CourseWorks Set-up** and **Configuring Your Training Station**, so I will know exactly how to take full advantage of the *Spanish Injection Molding Basics Training Series*.

✓ **Spanish Plastics Injection Molding Simulator;**

- Where I get the **Polymer Industry Competency Assessment Tool, PICAT, in Spanish**, which is the most widely used plastics processing simulator in the world.
- PLUS...** I will get the **PICAT Reference Guide** which is chock full of valuable processing techniques.
- AND...** as a simple **bribe**, I will also receive the **Careers in Plastics DVD**, which I can show to new (and even existing) employees about the different career paths in the exciting industry of plastics...
- AND...** I expect that you will call me when you ship this training package so I will know when to look forward to it, and I anticipate that you will also call me to make sure that I have received the whole package and make sure that I have everything I need to be up and running to training myself and my employees.
